Main Floor	3926 Sq. Ft.
Total Area	5697 Sq. Ft.
Width 108'	Depth 91'
Height 34'	Crawlspace

LUXURY & EASY ENTERTAINMENT

A grand columned entry, with a balcony above, introduces this truly luxurious and well-designed home. Double eight-foot French doors open to the formal foyer, which features decorative columns at the living-room entry and a lovely staircase to the upper level. A through fireplace warms both living and dining rooms. More casual space - a family room with corner fireplace, a breakfast nook and a gourmet-style kitchen - is contained at the back of the plan. A wet bar, walk-in pantry and butler's pantry connecting dining room and kitchen are special amenities here.

The wide rear porch enhances outdoor entertainment. At the far-left side of the main level are a guest suite, with full bath and walk-in closet, and a service entry to the garage and laundry room. On the far right is the master suite with fireplace and private bath. A home office with built-ins is nearby.

Three additional bedrooms reside on the upper level - Bedroom 5 has a private bath. A media room on this level features a ceiling-mounted TV and a pull-down screen for convenient viewing.
